Exonumia in the New Millenium

Volume 42 Number 4 August 2002

WANTED

SERIOUS CUSTOMERS FOR SERIOUS EXONUMIA!

For twenty five years, PRESIDENTIAL has been known for selling the finest quality tokens and medals in a wide variety of collecting fields. Through the years, we have handled major rarities in virtually every token and medal collecting area of significance. Below are just a few of the areas in which we deal extensively.

Hard Times & 19th Century Merchant Tokens
Civil War Tokens
Transportation Tokens
So-Called Dollars
All Kinds of Political Americana
Betts Medals
Indian Peace Medals
U.S. Mint Medals
World's Fair & Exposition Items
Art Medals

Official Presidential Inaugural Medals

AT AUCTION

We offer material from all of the above areas - plus some. We publish major sales twice yearly with the live portions held in conjunction with major numismatic conventions. The subscription fee of $10.00 brings you three sale catalogs + prices realized.

FIXED PRICE LIST

Every two years or so (or as the spirit moves us), we publish a price list of Official Inaugural Medals & Memorabilia and Presidential Gift Items. Our last list was compiled in January, 1997 and is still available, free, for the asking.

PRIVATE TREATY SALES

We conduct an extensive mail order business and will be pleased to receive your want list.

WE ARE BUYING

As much as we would like it to be otherwise, we operate in a relatively thin market . The majority of coin dealers could care less about tokens and medals and their buying prices reflect that disinterest. PRESIDENTIAL has specialized in the token and medal field for 25 years and is in a position to offer fair and knowledgeable prices for your material. If you would rather sell at auction - there is no better vehicle than our professionally cataloged illustrated sales. Our commission rate is a reasonable 10% and payment is made promptly 45days after the close of the sale.

THE 2002 MAUI TRADE TOKEN

Jerry Remick, TAMS 4391

The first 2002-dated United States municipal trade token was issued early in December 2001 under the sponsorship of the Maui Chamber of Commerce, Maui, Hawaii. The 39mm $1.00 denomination token has a milled edge and is struck on a copper-nickel planchet. It is valid for the entire year at participating merchants on the island of Maui.

This is the fifth municipal trade token in the second series of five annual issues sponsored by the Maui Chamber of Commerce. The Maui Trade Dollar Program has two purposes: to financially support innovative educational programs in public schools; and, by their wide distribution, to promote Maui as a spectacular visitor destination.

The design on the obverse of the token features a humpback whale and her calf leaping out of the ocean, with a typical Maui sunset in the background at the left. Hills from another island are in the right. Three birds are flying overhead. MAUI NO KA OI (Maui is the best) is at the top.

The reverse design, which remains the same each year, displays the Maui Chamber of Commerce logo, the "Lokelani Rose," graphically shown stylistically in the center. This rose is the official Maui Island flower. A large "1" with "ONE" horizontally across its center, is superimposed on the rose. GOOD FOR ONE DOLLAR / IN TRADE AT PARTICIPATING / MERCHANTS DURING / 2002 appears below the rose. Above is ONE MAUI TRADE DOLLAR, with THE VALLEY ISLE at the bottom.

Continental Coin Corporation of Van Nuys, Califomia minted the token. About 100,000 pieces were to be struck in copper-nickel. An additional 1,000 were struck in 24 carat gold electroplated on copper-nickel, and 2,500 were produced in .999 fine silver.

Additional information regarding this and previous issues may be obtained by writing Maui Trade Dollar Association, P.O. Box 631, Lahaina, Maui, Hawaii 96767-0631. Email: mauidollar@aol.com.

TAX TOKEN PUBLICATION DISCUSSES MANY BOXES

The theme of the Apr-Jun 2002 issue of *ATTS Newsletter*, the American Tax Token Society's quarterly publication, is boxes. Not just any boxes, but those elusive artifacts that manufacturers used to package tax tokens and sales tax receipts.

Frank Binder discusses "Ohio Boxes" which were used to package the paper sales tax receipts used in that state. "An Arizona Box" is the title of an article by Mike Strub, while Nick Sapone contributes "Missouri Box Typesetting." All of the articles include illustrations of the boxes.

The sixteen page newsletter includes other articles plus society news, a membership roster, and members' advertisements.

Collectors of sales tax tokens and related items should consider membership in the American Tax Token Society. For information contact ATTS secretary-treasurer Carl Cochrane at 12 Pheasant Dr., Asheville, NC 28803-4432. Annual dues are $8.00.

CATALOG OF MISSOURI TOKENS PLANNED

Bruce W. Smith is in the final stages of compiling a catalog of all known "good for" tokens from Missouri. To date he has listings of about 9,000 tokens from 870 towns. The book will include an index of all token issuing merchants.

TAMS members owning Missouri tokens are urged to send exact descriptions, including sizes and metals, to Smith, who may be contacted by mail at P.O. Box 941, Sheboygan, WI 53092. Or, email him at smithbr@bytehead.com.

BUFFALO NUMISMATIC ASSOCIATION CELEBRATES ANNIVERSARY

At its 23 May 2002 meeting, the Buffalo Numismatic Association celebrated its seventy-fifth anniversary. Refreshments and snacks were served and a good time was had by all. Copies of Norman Peters' recently published catalog of service station premium tokens were distributed to those in attendance.

A medal was struck to commemorate the event. One side gives the names of the officers and notes the occasion, while the other side features the group's logo. A total of only 100 medals were struck: 65 medals in copper and 35 in brass. While supplies last they are available at $13.50 each, postpaid. To order or obtain additional information contact the group's secretary-treasurer, Norman G. Peters, P.O. Box 29, Lancaster, New York 14086-0029.

FLORIDA TOKEN SOCIETY NEWSLETTER PUBLISHED

Tokenews, the Florida Token Society's quarterly publication, always has an interesting variety of articles, and the May 2002 issue is no exception. Featured is "Two New Florida Tokens" by Randy Partin, in which the author discusses modern tokens issued this year by his employer, Lockheed Martin Shared Services in conjunction with their employee recognition program. There are two types of tokens ($5 silver and $10 gold denominations), and every six months each employee is given $40 worth of the "doubloons." The employees, in turn, give them to other employees who, their view, deserve recognition. The tokens are redeemable for various gifts.

The H. T. James Motor Company is the subject of another article by Randy Partin. This company, which was located in Lakeland, Florida, issued a small bus token (Atwood-Coffee FL 440A) in 1927. Partin includes an illustration of the token, plus a picture of the bus and its first passenger.

Other articles, society news, a membership roster, and members' advertisements round out the sixteen page issue.

Information regarding the Florida Token Society may be obtained by writing Steve Ratliff, 1717 Saint Marys Bay Drive, FL 32583-7343. Dues for 2002 are only $7.50 and they include a subscription to *Tokenews*.

MALEHORN PUBLISHES CATALOG SUPPLEMENTS

Continuing an annual custom, Merlin K. Malehorn has released his year 2001 supplements to two catalogs he published in 1996. One of these is a catalog of school and college tokens and medals. The few pieces that have been cataloged since the previous supplement brings the total number of listings to over 3400.

The other supplement is to the catalog of Sambo's tokens, most of which are wooden nickels. Malehorn has added 24 pages of listings to the catalog, which now numbers approximately 2900 pieces. A few of the tokens are illustrated.

To obtain information regarding the catalogs and supplements, contact the author at 6837 Murray Lane, Annandale, VA 22003-1973.

CHIP COLLECTORS QUARTERLY PUBLISHED

The April, May, June 2002 issue of *Casino Chip and Token News*, the Casino Chip and Gaming Tokens Collectors Club's quarterly publication, has been sent to members of that organization. The 128 page large format magazine offers hours of reading, with many articles relating to the hobby of chips and metal tokens issued by casinos.

Douglas Saito contributes an article titled "Memories Are Made Of Chips," in which he discusses the upcoming sale of the Hank Boss chip collection. Boss started collecting in the late 1980s, and specialized in items manufactured by TR King and Company of Los Angeles. Because of his friendship with that firm's owner, Boss was able to research the company's records and obtain identifications and other information on a large number of maverick chips. Boss' collection numbers nearly two thousand chips.

Slot cards evidently originated during the early 1980s, in Atlantic City. Their purpose, according to an article by Steve Wells, is "to track a player's gambling action and give a benefit as a result – usually cash, merchandise, or complimentaries." Wells traces the usage of these cards, which are usually given to players free, and discusses their collecting possibilities.

In "Colorado News," Allen Banick illustrates and describes nearly thirty new chip and token releases. Archie Black's column, "Atlantic City Report," discusses several new issues from that city. Other articles, plus numerous advertisements of items for sale and club news, rounds out the issue.

MAVERICKS

Many times in this column I have recommended using the Internet to research mavericks. Be careful though, because the World Wide Web is really a moving target. The resources available today may not be there tomorrow. A couple of cases in point have come to my attention recently. I stumbled across an online directory that gave the names and addresses of many businesses, sorted by category and then by telephone area code. After checking the category "drinking places" in Chicago, I saw a reference to the Mallard Liquors maverick (see #16157 below), so I bookmarked the site for later use. When I went back to the site, it had been closed to everyone but subscribers to the service. I don't know why it was open in the first place, perhaps due to a programming error or a trial, but it is now unavailable to me.

Another example is the recent removal of California and Texas birth indexes from the genealogy site RootsWeb.com. These files contained information about living people and were closed to protect the privacy of those individuals. It is a stretch to think that genealogists or token researchers would use such Information improperly, but identity thieves and other criminal elements can and do access files of this nature.

Information found on the Internet can be good or bad, just like in other media. It is just as easy for someone to put erroneous information on the Internet as it is to put accurate facts. Family tree information seems to be especially vulnerable to inaccuracies.

On a similar note, please be sure you use the e-mail address for me as shown at the bottom of this column. My address has changed in past years, and the old addresses may not work for much longer. Also, if you send e-mail, be aware that I get a lot of spam or junk e-mails and have resorted to using my "Delete key" a lot to avoid vIruses and to avoid wasting time. I delete without opening anything that looks suspicious or has unrecognizable things in the subject line. Subjects of "hi," "info for you," or simply nothing tend to be deleted if I don't recognize the sender. To get through my little screening process, put "TAMS" in the subject line.

NEW LISTINGS

To have your mavericks listed in this column, mail them (not more than 25 at a time, please) to the Maverick Editor at the address below. Please do not send "initials- or numbers-only" mavericks or other pieces with only a slim chance of being attributed. Since photographs or rubbings do not reproduce adequately, send the actual tokens to be photographed and listed. Package them securely, and include stamps or a check made out to me to cover return postage and insurance, indicating desired insurance valuation. As always, if you have mavericks you would like looked up in the TAMS database, e-mail or send me a list and I will be glad to check them.

FEUCHTWANGER TOKENS WANTED

I am collecting and studying Lewis Feuchtwanger one-cent and three cent tokens, circa 1837, classifying them by die varieties and die states. I would be pleased to examine any items sent to me and will make an attractive (in my opinion) cash offer for any that I can use, and in any event will return postpaid any that I cannot use, and pay roundtrip postage.

I seek the familiar one-cent pieces of 1837, the three-cent pieces of that same date, plus store cards or anything else bearing the Feuchtwanger name. All inquiries will be answered personally and promptly. Thank you for your interest!

TAMS

INTRODUCING THE

TOKEN AND MEDAL SOCIETY

For All Collectors of Tokens and Medals and Related Exonumia

The Token and Medal Society (TAMS) was founded in 1960 as "The Society of Medal, Token and Obsolete Paper Money Collectors." A year later the name was officially changed to the Token and Medal Society.

Exonumists, as TAMS members are known, is a coined word which denotes collectors of numismatic items not of government issue. Accordingly, the collecting and study of tokens and medals is known as "exonumia." TAMS members have always been among the most dedicated collectors and students in the hobby of numismatics.

THE AIMS OF TAMS ARE:

- To promote and stimulate the study of tokens and medals.
- To encourage development of research, articles and recordings pertaining thereto
- To cultivate fraternal collector relations
- To disperse information and knowledge in the society's journal
- To promote meetings and conventions
- To determine and publish detailed information on the values of tokens and medals
- To permanently record historical information relating to tokens and medals by publishing original works by members; and by reprinting old works not readily available to present day collectors.

BENEFITS OF MEMBERSHIP

OUR TAMS JOURNAL

1. Published six times annually, each volume totalling nearly 300 illustrated pages
2. Timely educational articles
3. Maverick listing (for those hard to identify pieces.)
4. Commercial advertising
5. Free classified advertising
6. Periodic publication of original monograph length studies by members.

OUR TAMS LIBRARY

1. Over 1000 books and publications
2. Cost — Roundtrip postage
3. Available to all — Write TAMS Librarian

OUR ANNUAL MEETING

1. Held in conjunction with the American Numismatic Association Convention
2. Provides for member fellowship
3. Recognition awards are presented

OUR MEDALLIC ART PRODUCTIONS

1. Past presidents medals are available for purchase in bronze and silver
2. Assemblage medals — Available annually by subscription only

OUR CATALOG PUBLISHING PROGRAM

Provides for the publication of original works on exonumia subjects which would not otherwise be published due to their marginal profit possibilities

OUR ORIGINAL WORKS PUBLICATION FUNDING

Provides funds on a reimbursable basis for the private publication of original works which permanently record historical information relating to tokens and medals

OUR AWARDS PROGRAM

1. B P Wright Award
   Sponsored by the Society, this award is presented to the first place winner in the token exhibit category at the American Numismatic Association's annual convention.
2. Literary Awards — Gold, Silver, Bronze
   a) Joseph M. Segel Gold — Presented for the article in the TAMS Journal that best relates to the original history of tokens and medals
   b) TAMS Silver & Bronze — Presented for articles appearing in the previous year's Journal which display excellence in historical journalistic achievement
3. Medallic Art Medal of Merit
   Presented to the TAMS member who has contributed most to TAMS and exonumia during the preceding year.
4. Catalog Awards
   The Mishler Exonomia Cataloging Awards for the best catalogs published during the preceding year

TAMS PUBLICATIONS

Besides the TAMS Journal, TAMS has published or reprinted a number of important books. While some of these are out-of-print and unavailable through TAMS, some may be purchased from private booksellers. All of course may be borrowed from the TAMS library by TAMS members.

Dues of $15.00 per year are payable to the Treasurer, no later than March 31, of each year.

COLLECT TOKENS AND MEDALS

If you are not presently a collector, or have become bored of the sameness of collecting coins by dates, add "life" to your hobby by collecting tokens and medals as an alternate or supplement to your present collecting interests. Tokens offer history, both local and national, plus a record of the changing customs of people, and preserve it in a way that coins never can. You'll learn from tokens that bread once sold for 5¢ a loaf, and that during wartime, merchants had their own tokens struck to replace hoarded coins. You may even find a token issued by your own grandfather or by a storekeeper you remember from years ago. Tokens are personal, reflecting history you can relive and enjoy.

Medals on the other hand, reflect history in a different way — by commemorating important events and persons of the past and present. Nowhere else in the numismatic field can you obtain the history that may be gleaned form a medallic collection; practically every event or person of importance has been commemorated at one time or another. And, if you are a confirmed collector of sets, it is possible to turn one's interests to collecting medals by subject — there are many medals of George Washington, for example, and when assembled, you will have far more variety than a set of coins by dates and mintmarks. Added to the historical value of medals is the artistic superiority of many pieces. Unlike coins, which must meet various restrictions of design and inscription, sculptors and medals have more free rein and are thus able to produce many artistic masterpieces that can be found nowhere else.

So, whether your interests lean toward history and art as expressed by medals or the "everyday" history and social customs as expressed by tokens, you will surely find something in this field to whet your collecting appetite. Should you already be collecting tokens or medals in a small way or would like to give it a try, you will find that you need some sort of guide. We believe the answer to this is the Token and Medal Society, a national collector's organization of more than 2000 collectors. Through its members and the pages of its bi-monthly Journal and books, you will learn of collecting avenues of which you never dreamed, ranging from game counters and car wash tokens to American Legion and Presidential Inauguration medals. A summary of the services offered by the Token and Medal Society will be found described in this folder. We invite you to join us.
